Please let us know about the design and function of the battery (only for electric type)</p> <p><input type="checkbox"/> Does the battery use special tools or can not be removed unless they bring it to the manufacturer ?</p> <p style="margin-left: 20px;"><input type="checkbox"/> Protection for malfunction → <input type="checkbox"/> Yes</p> <p style="margin-left: 40px;">↘ <input type="checkbox"/> No → <input type="checkbox"/> Battery terminal can be removed</p> <p><input type="checkbox"/> The battery can be removed easily. → <input type="checkbox"/> Lithium-ion battery with 300Wh or less</p> <p>*Please note that the following batteries can not be accepted for air travel.</p> <p>① Spillable Battery (Wet-cell “non-sealed”)</p> <p>② Lithium-ion battery with a power amount exceeding 300 Wh where the battery can be easily removed (One spare lithium-ion battery carried in the cabin with 300 wh or less, one less than 160 Wh is up to two)</p> <p>③ Batteries that do not have malfunction prevention system and can not remove the terminal, if you can not remove the battery unless you use a special tool or bring it to the manufacturer.</p>			

*We will store your wheelchair at the check-in counter and take you to the boarding gate with the wheelchair we prepared.

*When you check-in with Electric Wheelchair, please inform the airport staff how to prevent battery short circuit.

* The wheelchair with gas spring which are not made in Japan, or those not attached with "dangerous goods exclusion label", can not be accepted for check-in.

*The large size wheel chair may not be accepted due to space in the cargo hold of the aircraft.
